2. The Greek version of the Old Testament, which derives its name from the story that it was made by seventy-two Palestinian Jews at the request of Ptolemy Philadelphus (284-247 B.C.) and completed by them, in seclusion on the island of Pharos, in seventy-two days. (Denoted by LXX.)

The authority for the old story is the Letter of Aristeas to Philocrates, long known to be spurious, which purports to give contemporary evidence of the undertaking. The translation is now held to have been made by Egyptian Jews, independent of each other and living in different times.

Seraphim (sē·răfim), †**se·raphin.** Forms: 1, 3–7, 9 *arch.* **seraphin**, 3 **serafin**, 4 **serafyn**, 5 **ceraphin, seocheraphym, -phyn, seraphyn, -en, serophyn, syraphyn**, 6–7 **seraphine**, 1, 6– **seraphim.** [a. late L. *seraphim* (Vulg.), in MSS. often *seraphin* (= Gr. σεραφίμ, σεραφείμ, LXX.), a. Heb. שְׂרָפִים *śrāphim* (only in Isa. vi), pl. of * שָׂרָף *sārāph*, which is not recorded in the Bible, unless it be identical with the formally coincident word denoting a kind of venomous serpent, which occurs as quasi adj. or in apposition with *nāḥāsh* serpent in Num. xxi. and Deut. viii. (Eng. Bible 'fiery serpents', after Vulg. *ignitos serpentes, serpens adurens*; LXX ὄφεις θανατοῦντας, ὄφις δακνων), and in Isa. xiv. 29 and xxx. 6 with the epithet 'flying' (Eng. Bible 'fiery flying serpent').

Some scholars assume the identity of the word occurring in Isa. vi. with that found in the other passages. On this view the 'seraphim' seen by Isaiah flying above the throne of God represent a mythic or symbolic conception which must originally have had the form of a 'fiery flying serpent', though in the vision this appears considerably modified. The word *sārāph*, as the name of a kind of serpent, may belong to the root *sāraph* to burn, in allusion to the effect of the bite (cf. Gr. πρηστήρ). This etymology has given rise to a conjecture that the celestial 'seraphim' originally symbolized the lightning. Of those who reject the identity of *sārāph* 'seraph' with *sārāph* 'fiery serpent', some refer the former to the root of the Arabic *sharafa* to be lofty or illustrious. Phonologically this is unobjectionable, but on other grounds it is now generally abandoned. Various suggestions of non-Hebrew (Egyptian, Assyrian, etc.) etymology have been made, but have not found wide acceptance.

The L. form *seraphin*, which is found in many MSS. of the Vulgate, and is the source of all the forms used in Eng. down to the 16th c. (as well as of those in the Rom. langs.), coincides with the Aramaic *s'rāphīn*, but it is very doubtful whether it is more than a scribal error or a euphonic alteration. Cf. F. *séraphin* (*serafin*, 12th c), Pr. *seraf*, Sp. *serafin*, Pg. *seraphim*, It. *serafino* (all masc. sing.).

In the Latin liturgical passages from which the word first became widely known, it was prob. originally apprehended correctly as a plural, and readers of the Latin Bible would be guided aright by the syntax of Isa. vi. 2; but there is evidence that 'Cherubim and Seraphim' were often supposed to be the names of two individual angels. From the 15th to the 18th c. the English plural ending was often appended, but *seraphin* as a sing. = 'one of the seraphim' does not appear in Eng. till late in the 16th c. (the form *seraphins* in this use not till the 17th c.). After the introduction (perh. by Milton) of the form Seraph, the misuse of the plural forms in singular sense gradually became rare, and it is now obsolete.]

1. In Biblical use: The living creatures with six wings, hands and feet, and a (presumably) human voice, seen in Isaiah's vision as hovering above the throne of God.

1382 Wyclif *Isa.* vi. 2 Serafyn stoden up on it. [1535 (Coverdale), 1537, 1539, 1551 the Seraphins; 1540 Seraphins; 1560 (Geneva), 1611 the Seraphims; 1568, 1609 (Douay) Seraphims; 1884 (Revised) the seraphim.]

2. By Christian interpreters the seraphim were from an early period supposed to be a class of angels, and the name, associated with that of the cherubim, was introduced in the Eucharistic preface and subsequently in the *Te Deum*, and thus became extensively known. The presumed derivation of the word from a Heb. root meaning 'to burn' (see above) led to the view that the seraphim are specially distinguished by fervour of love (while the cherubim excel in knowledge), and to the symbolic use of red as the colour appropriate to the seraphim in artistic representations. In the system of the Pseudo-Dionysius, the chief source of later angelology, the seraphim are the highest, and the cherubim the second, of the nine orders of angels.

Serf (sɔ̄f). [a. OF. *serf*.—L. *serv-um* slave; cf. Sp. *siervo*, Pg., It. *servo*.]

Not in Johnson. Todd 1818 has '*Serf*, a slave. Not in use', with quot. from Hume 1761 (see 2 b).

†1. A slave, bondman. Also *fig. Obs.*

1483 CAXTON *Golden Leg.* 101/2 Who so loueth the rychesays of thys world he is..bonde and serf in kepyng the rychesse. *Ibid.* 243/2 There was a yong man which was serf and bonde to a yonge lady. 1484 — *Chivalry* 15 Yf thou be wycked thou aughtest to be put under a serf or bonde man.

2. A person in a condition of servitude or modified slavery, distinguished from what is properly called 'slavery' in that the services due to the master, and his power of disposal of his 'serf', are more or less limited by law or custom.

In most of the typical examples of serfdom, the serf was 'attached to the soil' (*adscriptus glebæ*), i. e. he could not be removed (except by manumission) from the lord's land, and was transferred with it when it passed to another owner. This feature is often assigned as the distinctive mark of 'serfdom' as opposed to 'slavery', and is popularly apprehended as an essential part of the notion.

a. In the 17–18th c. used (after Fr. example) with reference to the contemporary condition of the lower class of cultivators of the soil in various countries of Europe, esp. in parts of Germany, in Denmark, Poland, and Russia. Now used *Hist* with the same application; chiefly with reference to Russia, where the serfs were not emancipated until 1861, while elsewhere in Europe serfdom ceased to exist early in the 19th century.

1611 R. JOHNSON *Kingd. & Commw.* 75 [France], As for Serfes, Slaues or Villaines, they are Domesticke, and serue vppon baser condition, for Wages and Victuals. *Ibid.* 76 Neither the Subiect nor the Serf are bound to go to the warres, but only the vassall. 1761 HUME *Hist. Eng.* (1762) I. App. i. 151 There were two kinds of slaves among the Anglo-Saxons; household slaves,..and prædial or rustic... These latter resembled the serfs, which are at present met with in Poland, Denmark and some places in Germany. 1784 W. COXE *Trav.* I. viii. I 129 The peasants in Poland, as in all feudal governments, are serfs or slaves. 1797 *Encycl. Brit* (ed. 3) XVI. 571 The subordination of ranks was more complete [among the Russians] than in any other European nation; but with this simplicity peculiar to them and the Poles, that they had but three ranks, the sovereign, the noblesse or gentry, and the serfs. 1845 DISRAELI *Sybil* IV. v, Lower than the Portuguese or the Poles, the serfs of Russia, or the lazzaroni of Naples. 1861 BRIGHT *Sp., Amer* 4 Dec. (1876) 90 [In Russia] twenty-three millions of human beings, lately serfs, little better than real slaves, have been raised to the ranks of freedom. 1880 'OUIDA' *Moths* II. 381 You have no serfs now, even in Russia.

b. Used by modern writers with reference to mediæval Europe

In English Law Latin the terms corresponding to the modern use of *serf* were *nativus* (NATIVE *sb.* 1, NEIF), *villanus* (VILLEIN), and occasionally *servus*. The OE. THEOW, and the *servus* of Domesday Book, are usually rendered 'slave'.

1761 HUME *Hist. Eng.* (1762) I. App. ii. 404 A great part of them were serfs, and lived in a state of absolute slavery or villainage. 1805 SCOTT *Last Minstr* IV. v, A half-clothed serf was all their train. 1874 GREEN *Short Hist.* v. § 4. 240 By this entire detachment of the serf from actual dependence on the land, the manorial system was even more radically changed than by the rise of the serf into a copyholder. 1895 W. J. CORBETT in *Soc. Eng.* v. (1902) II. 140 As the tone of society became gentler, the lords naturally had a tendency to free their serfs;..in the eyes of the law the villeins remained serfs.

1. A woollen fabric, the nature of which has probably differed considerably at different periods. Before the 16th c. it is mentioned chiefly as material for hangings, bed-covers, and the like; afterwards it is often referred to as worn by the poorer classes (both men and women), perh. rather on account of its durability than of its price, which seems not to have been extremely low. The name now denotes a very durable twilled cloth of worsted, or with the warp of worsted and the woof of wool, extensively used for clothing and for other purposes.

b. Distinguished as *grand* and *petit* (or *petty*) *serjeanty*.

In their AF. form, these terms occur in the 13th c. According to *Britton* (*c* 1292), *grand serjeanty* obliges the tenant to a service 'touching the defence of the country', such as acting as marshal, putting an army in the field, or finding a horseman and his equipment for the army, while *petit serjeanty* binds him to a service 'amounting to half a mark or less', such as carrying to the king a bag, a brooch, an arrow, or a bow without string, etc. Later writers give more or less differing accounts: see quots. 4. *Oxford University.* In certain colleges, one of a class of undergraduate members (no longer existing under that title: see quot. 1852) who received their lodging and most of their board free, and were excused lecture fees.

Originally the servitors acted as servants to the fellows, and although the requirement of menial services from them gradually fell into disuse, they continued to be regarded as socially the inferiors of the commoners. The last mention in the Oxford University Calendar of servitors as an existing class (at Christ Church) is in 1867; in the following year the same persons are called 'exhibitioners'. In most of the colleges the funds originally used for servitorships are now used for 'exhibitions', but at Balliol for scholarships. France* 96 But there are some instances of personal service, and which are held to be legal..provided they relate to husbandry, and not to any servitude or attendance upon the person of the landlord.

7. In *Civil Law* (= L. *servitus*), and hence in *Scots Law*: a subjection or subserviency of property either: (1) to some definite person other than its owner ('personal servitude'), or (2) to some definite property other than that of its owner for the benefit of the dominant property ('prædial servitude'). In *Scots Law* the term is now in practice restricted to prædial servitude, which includes both the 'easement' and the 'profit à prendre' of English Law; it has been sometimes used by English lawyers to include both these kinds of rights.

A personal servitude (of which usufruct is an example) could be constituted either over movables or immovables; a prædial servitude (e.g. a right of way) could only be constituted over an immovable in favour of another immovable.

b. *spec.* In English parliamentary use, applied to the period between the opening of Parliament and its prorogation.

The term *autumn session* (instead of 'autumn sitting') is sometimes used to designate the exceptional resumption of the sittings of the Houses, after an adjournment, in what is normally the autumn recess; but this use is condemned by parliamentary authorities as incorrect.

b. Sessions of the peace (in ordinary language simply **sessions**): the periodical sittings of justices of the peace (or, in some instances, of a stipendiary magistrate or a recorder). Often const. as *sing.*

In England the sessions of the peace are of the following kinds: *petty sessions*, a court held by two or more justices or a stipendiary magistrate, exercising summary jurisdiction in minor offences within a particular district (a 'petty sessional division'); *special sessions*, a periodical meeting of the justices of a division prescribed by statute for the transaction of some particular kind of business (under this head are included *brewster* or *licensing sessions*, for the hearing of applications for licences to sell alcoholic drinks); *general* or *quarter sessions*, a court held four times a year (in a county, riding, etc. by the justices of the peace, and in certain boroughs by the recorder), having a limited criminal and civil jurisdiction and certain administrative functions. (*The sessions*, without qualification, usually denotes the quarter sessions.) Quarter sessions are also held in Scotland and Ireland. In certain British colonies the English system of sessions of the peace formerly existed, and was for a time retained in some of the United States.

Confusion between *set* and *sit* arose as early as the beginning of the 14th c., owing partly to the identity or close similarity of the forms of their past tenses and pa. pples., and partly to the identity of meaning in some uses, as between *to be set* (= seated) and *to sit*; cf. SIT *v.* (etym. note and A. 5 a a note). For cases of mere substitution of forms of *sit* for forms of *set*, see A 1 γ, 2 ζ below. B. Signification.

General arrangement of senses. I. To cause to sit, seat; to be seated, sit. II. To sink, descend. III. To put in a definite place (the manner of the action being implied either in the verb itself or in the context). IV. To place or cause to be in a position, condition, relation, or connexion. (This group embraces a large number of uses in which the precise implication of sense depends mainly on the kind of construction employed.) V. To appoint, prescribe, ordain, establish. VI. To arrange, fix, adjust. VII. To place mentally, suppose, estimate. VIII. To put or come into a settled position or condition. IX. To put in the way of following a course, cause to take a certain direction. X. Senses perhaps arising from reversal of construction or from ellipsis (their origin being often obscure). XI. With prepositions in specialized senses. XII. With adverbs in specialized senses. (Combinations formed on the verb-stem are given in a separate article, SET-.) ☞ A phrase key is given on page 548.

I. To cause to sit, seat; to be seated, sit.

The intransitive sense 'to sit' (5) was apparently developed out of the reflexive and passive uses of the original transitive sense of 'to seat'. *Set*, being thus used synonymously with *sit*, became capable of taking its other senses and constructions (see 5 d, e, 6, 7).

1. *trans.* To place in a sitting posture; to cause to occupy a seat; to seat.

This sense is barely exemplified outside certain phraseological expressions, e.g. *to set on a seat, a throne, on horseback*, etc, in which the sense 'cause to sit' is now lost sight of. (Prov. *to set a beggar on horseback*: to give an undeserving person an advantage which he will misuse.)
